## Bakery Wraps | Collection by Novak Papir

### WRAP PAPER PRINTED OR PLAIN

 Bakery paper wraps are very prone to the high temperatures that they are exposed to. That is why we offer paper that is designed for use as food lining and wrapping paper for the finished product. Our customer receives material in which baked foods can last longer. They are also made to be greaseproof and at the same time allow warm pastry products to breathe.

 Bäckereipapiere sind empfindlich auf Temperaturen, in welchen mit denen gearbeitet wird. Deshalb produzieren wir Papier, das als Unterlage und gleichzeitig auch als Verpackung dienen kann. Unser Kunde erhält so ein Material, in dem die Backprodukte länger frisch halten, sind Fettdicht und gleichzeitig ermöglichen das „atmen“ des Gebäcks.

 Pekařské papíry jsou velmi náchylné na teploty, ve kterých se s nimi pracuje. Proto připravujeme papír, který je určen jako podkladový a balicí papír na již hotový výrobek. Náš zákazník tak získá materiál, ve kterém mu pekařské výrobky vydrží déle čerstvé, jsou ošetřené proti nepromaštění a zároveň umožňují teplému pečivu dýchat.

Food Wrap Standart Products	Grammage:	Standard Sheet Sizes: (cm)	Max. roll width for lamination:	Laminated or coated on one/both sides:
